

ASTO.U01. Figure Index: Panoramic Visual Index

Version: 1.2 (Index Synced)

Status: Generated

Context: This document collects all core diagrams in the Attribute-Set Transition Ontology (ASTO) system as a panoramic visual index.

Fig 01: Entry Path and Triple Filters

- **Source:** ASTO.P02.Prologue / ASTO.P04.Manifesto
- **Description:** Describes the cognitive calibration process from "Reading Now" to "Entering the Field".

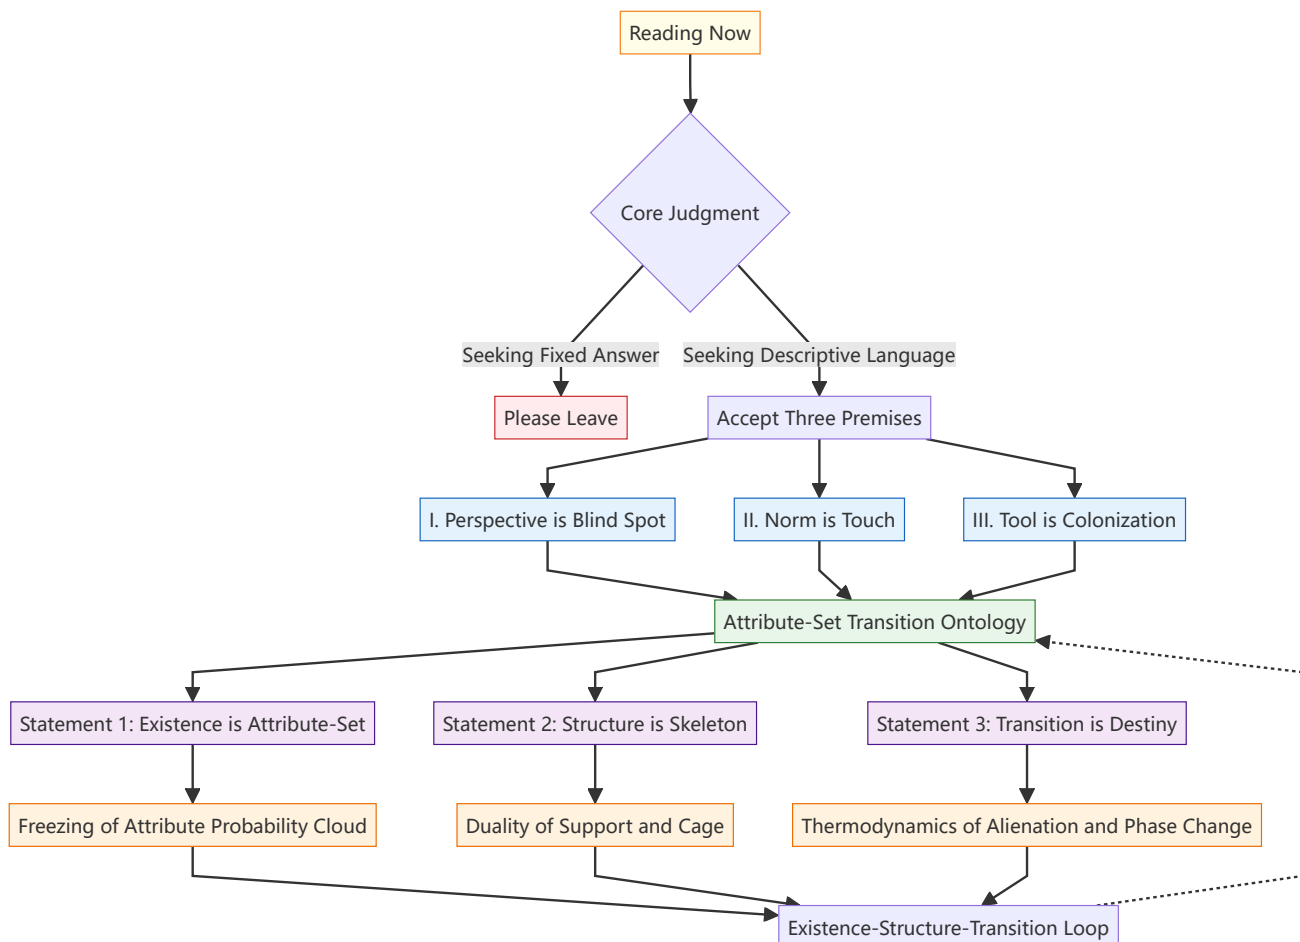

Fig 02: ASTO Core Dynamics Loop

- **Source:** ASTO.P04.Manifesto
- **Description:** Shows how a system births order from chaos, alienates due to environmental transition, and finally moves towards collapse or transition.

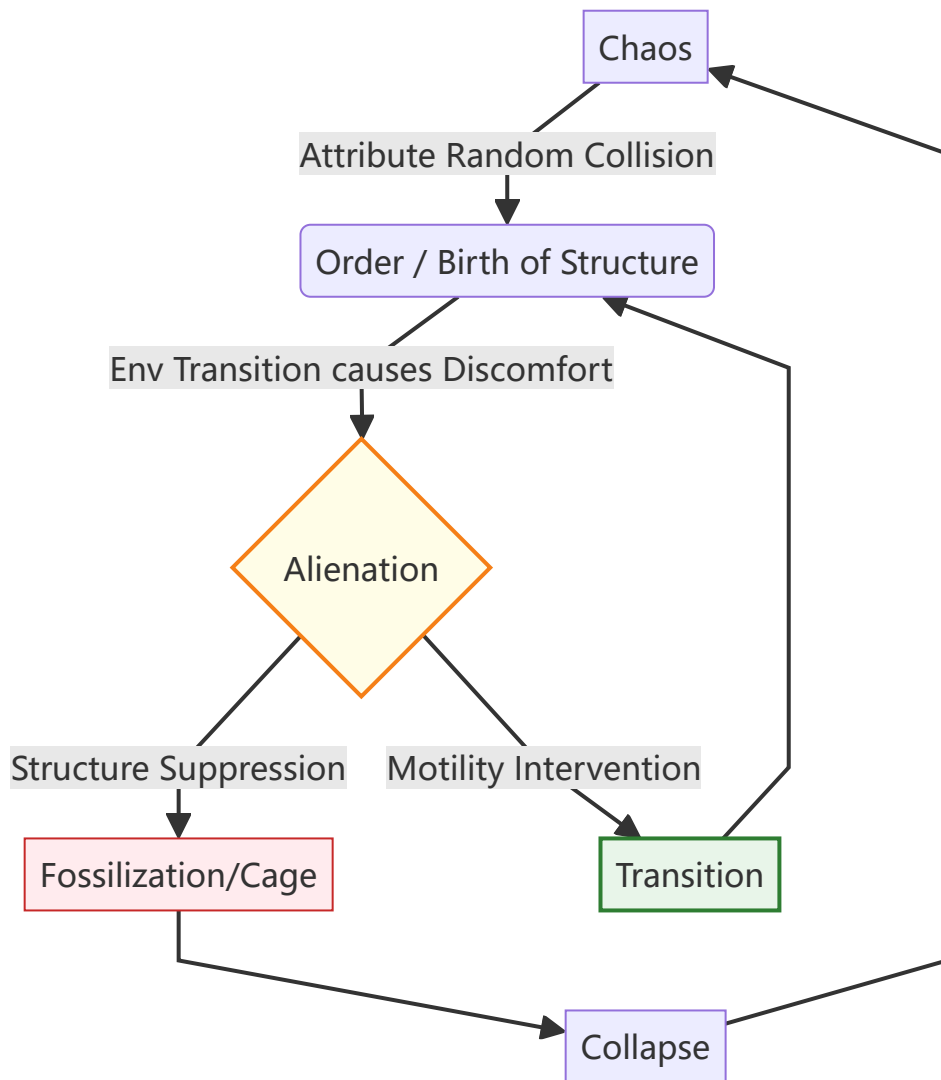

Fig 03: System Thermodynamics Logic Flow

- **Source:** ASTO.P05.Axioms
- **Description:** Shows how the six axioms connect the lifecycle of a system.

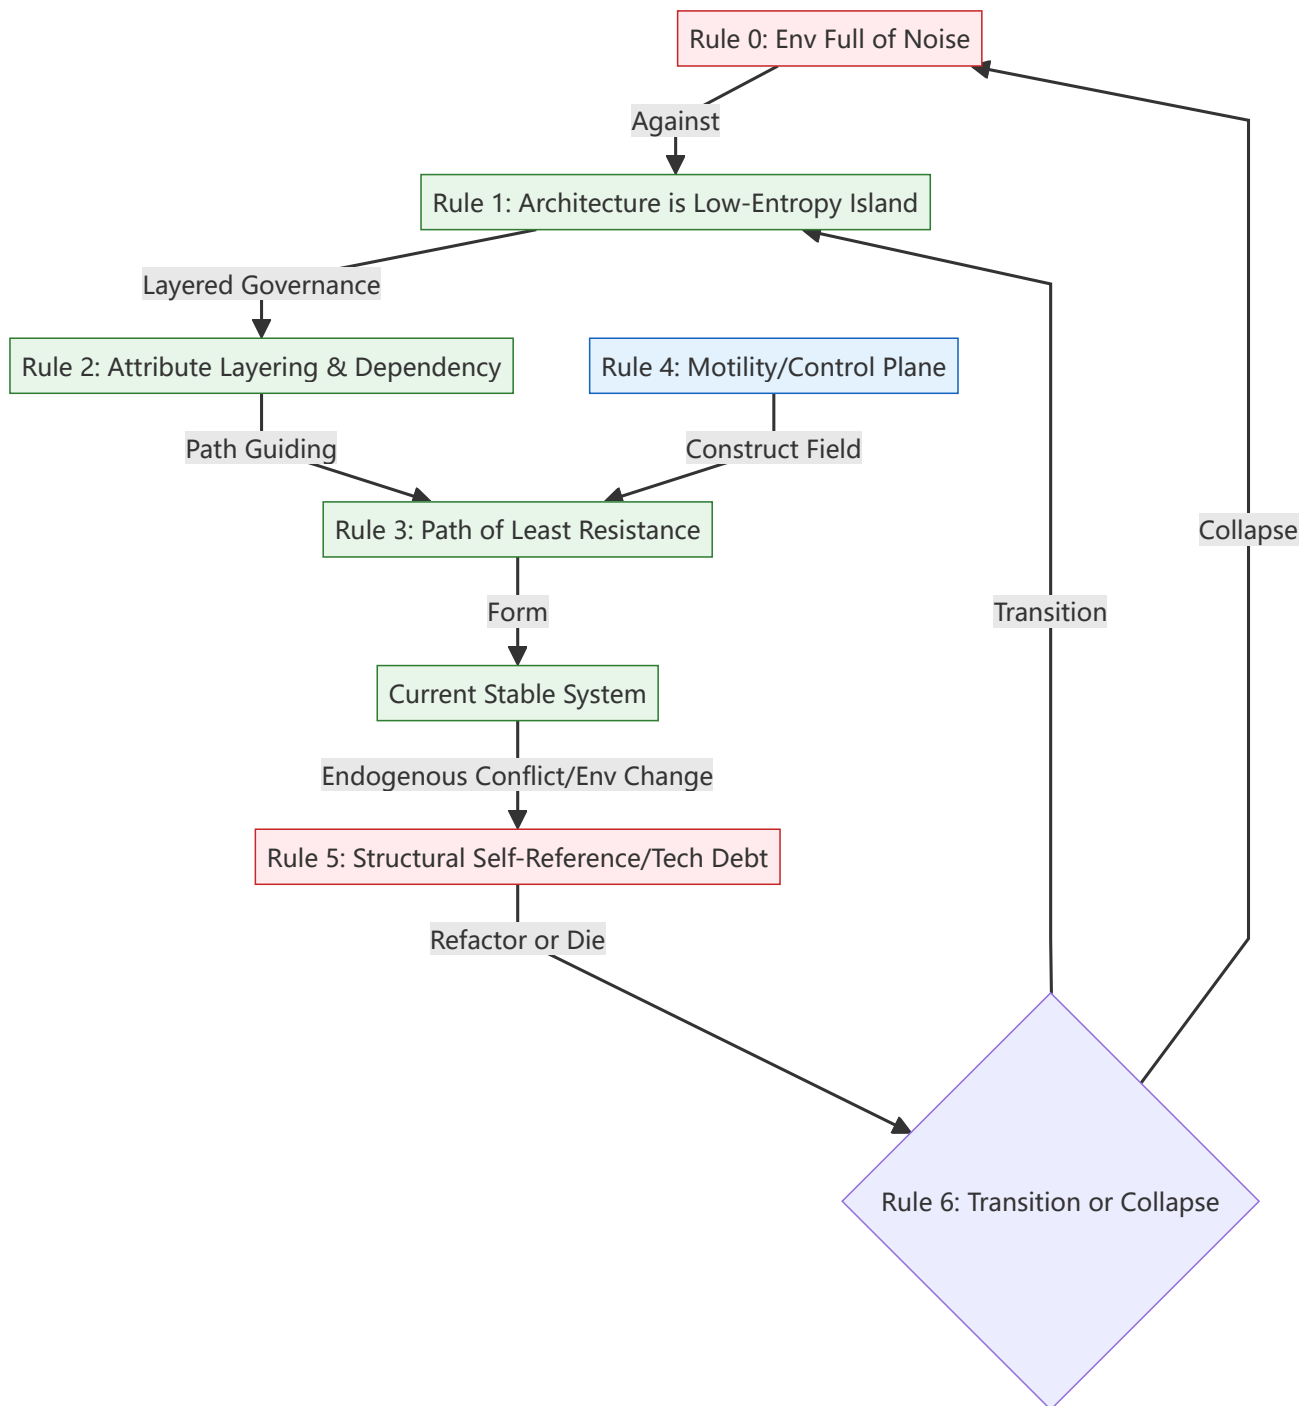

Fig 04: SDLC State Machine (Five States Flow)

- **Source:** `ASTO.P06.Values` (or P05 depending on version, cited as `ASTO06.Ontology` in original)
- **Description:** Shows the transition path of code between five forms.

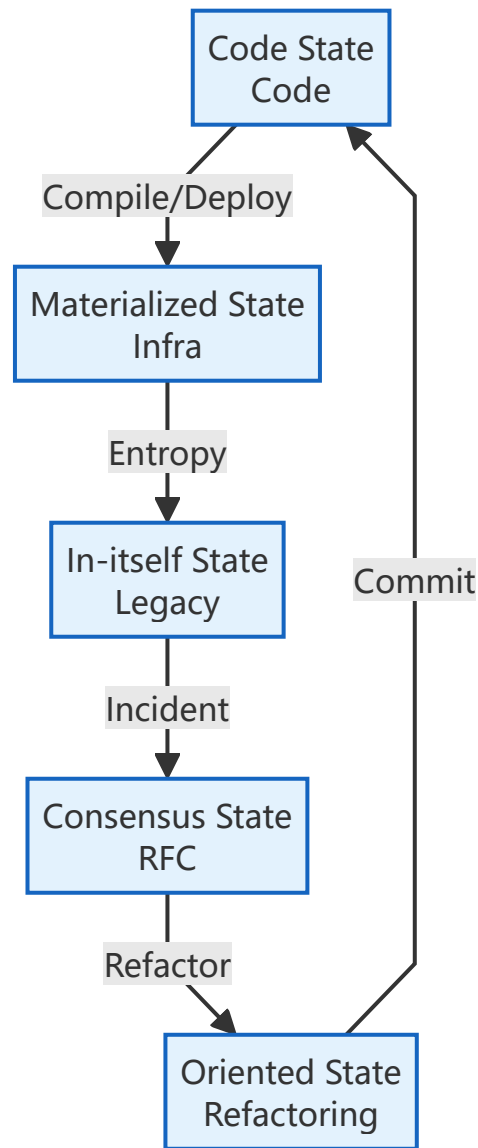

Fig 05: Semantic Loss

- **Source:** ASTO.E03.Web3
- **Description:** Shows how human intent loses NEN attributes during compilation.

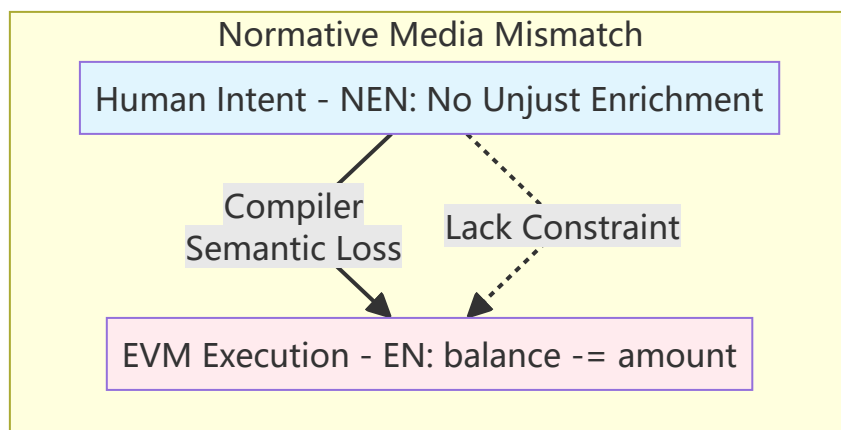

Fig 06: Five-State Layered Governance Architecture

- **Source:** ASTO.E03.Web3 / ASTO.E04.AI
- **Description:** Shows how NEN layer, EN layer, and App layer collaborate.

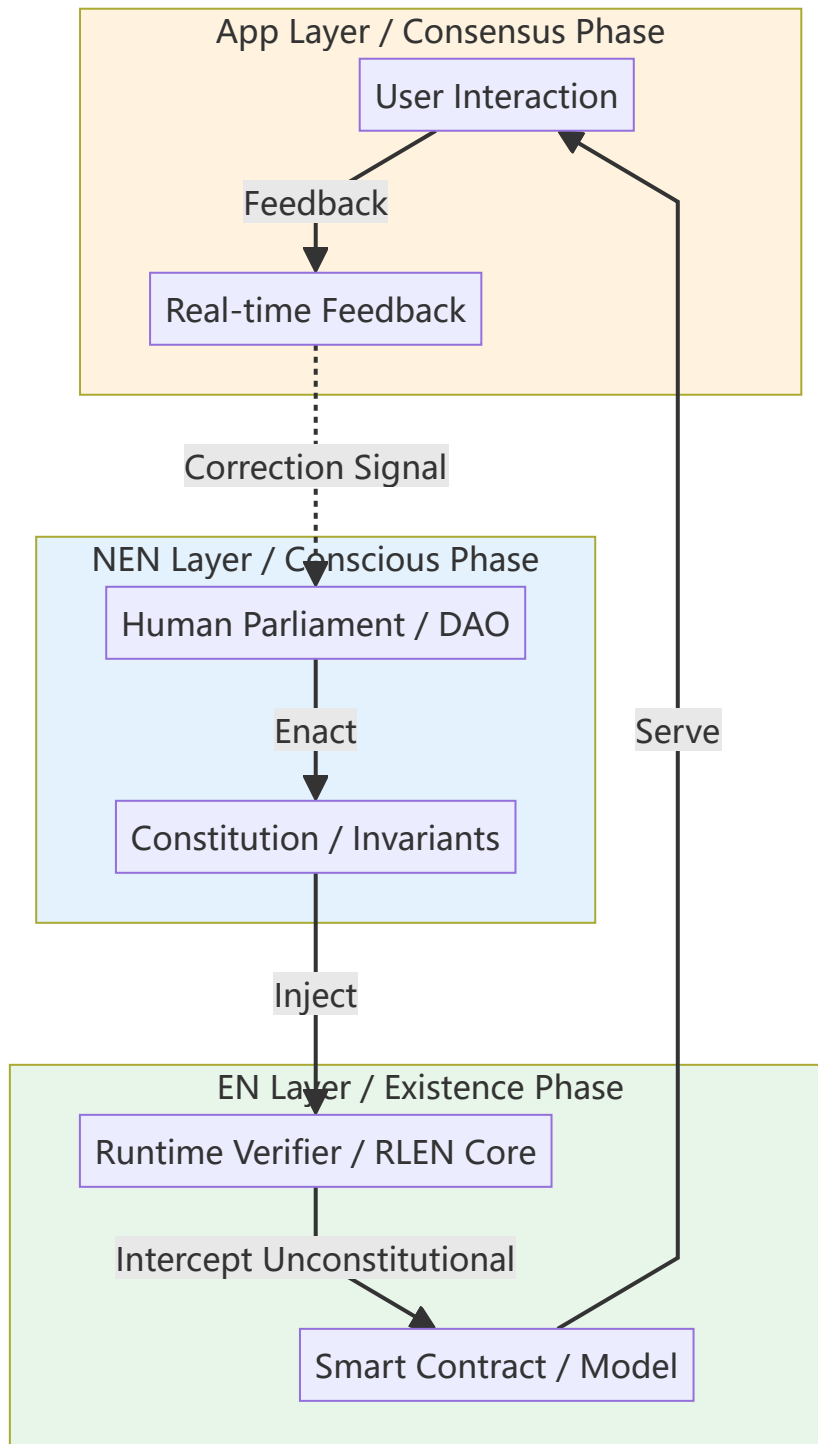

Fig 07: Historical Coordinate System

- **Source:** ASTO.P02.Prologue (Appendix) / ASTO.P12.Trace
- **Description:** Shows ASTO's inheritance and fusion of Eastern and Western thoughts.

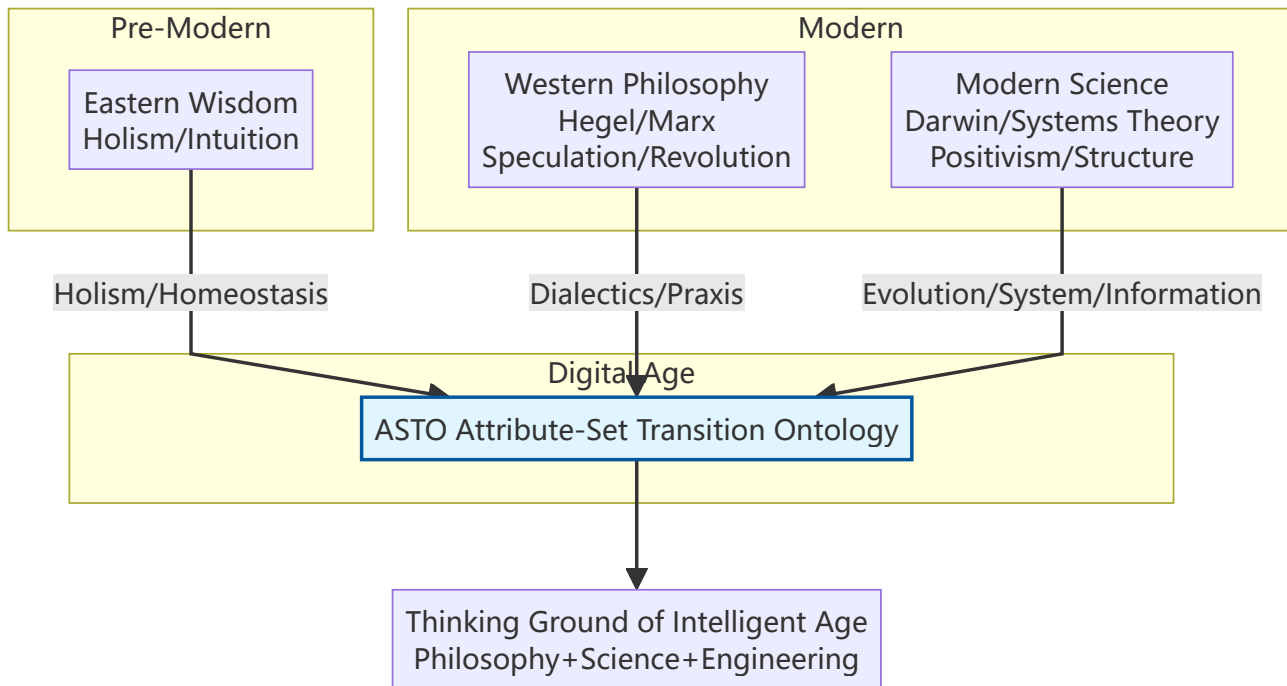

Fig 08: Dialogue Platform Three-Layer Architecture

- **Source:** ASTO.P10.Democracy
- **Description:** Shows how to transform speech into structural transition.

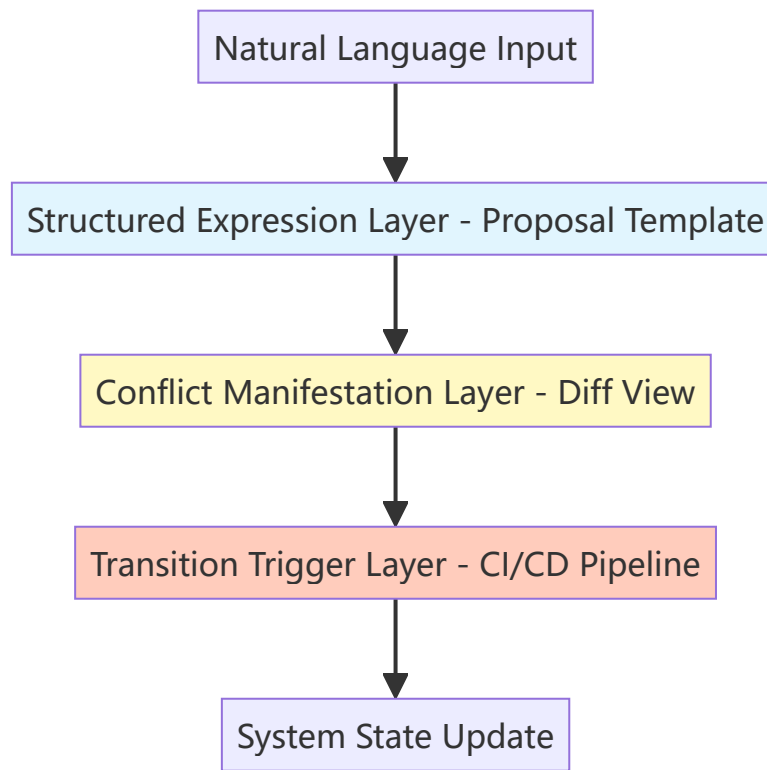

Fig 09: Normative Executability Gradient (NEG)

- **Source:** `ASTO.E02.Automation`
- **Description:** Shows automation grading from L1 to L4.

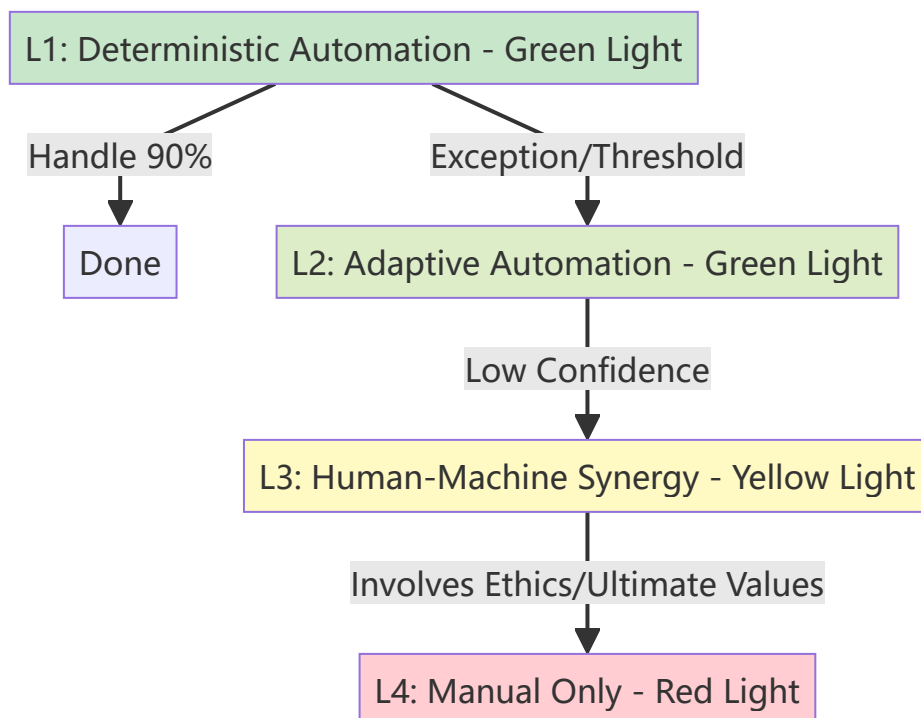

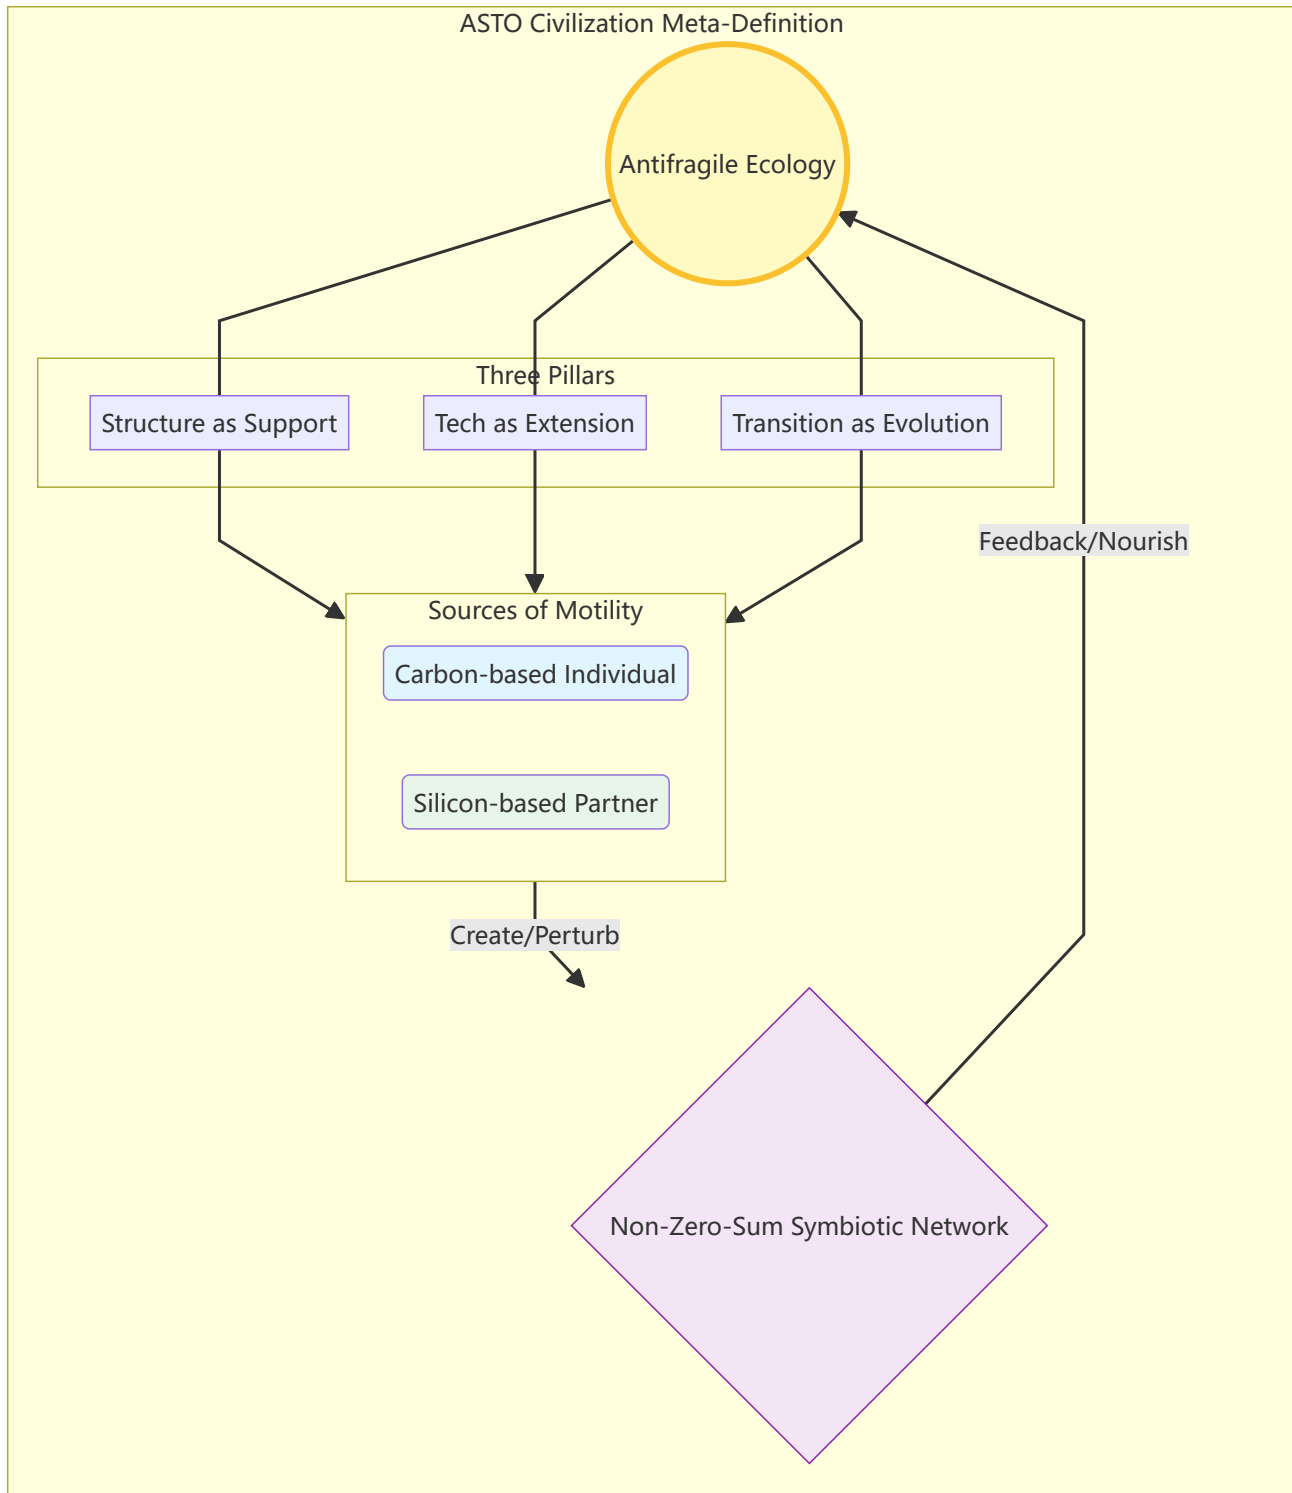

Fig 10: ASTO Civilization Panorama

- **Source:** ASTO.P04.Manifesto
- **Description:** Shows the symbiotic civilization landscape ASTO pursues: "Antifragile, Non-Zero-Sum, Motility Maximization".
