Explanation of ASTO Theoretical System Overview Map for AI

This map is designed specifically for AI as a **complete map of the ASTO theoretical system**, containing all core modules and their interrelationships:

Six Modules:

1. 📖 Theoretical Foundation (Cyan)

- Ontology Core: Existence is Attribute-Set, Structure is Skeleton, Transition is Fate
- 1-2-3 Theory: Pre-Existence → Observation/Cut → Attribute-Set Medium Intervention
- Attribute Dynamics: Recognition+Prediction+Intervention, Wet/Dry/Living Knowledge Conversion

2. ⚙️ Process Architecture (Blue)

- **1-5-6-7-1 Spiral**: The Five Evolution → The Six Rhythm → The Seven Loop → New One
- Emphasizing spiral ascent rather than simple cycle

3. 🧑 Humanistic Dimension (Purple)

- Triple Existence: Experiential → Meaning → Transcendent
- Free Definition: Creativity under Field Constraints

4. 🛠️ Practice Tool (Red)

- Four Levels of Unity of Knowledge and Action: Thinking → Action → Engineering → Reverence
 - Complete transition path from knowledge to action
5. ⚡ **Boundary and Guarding** (Green)
- Fundamental and Taboo: Vital Organ vs Death Red Line
 - Plurality and Untouchable Dimension: Free Will Space and Ethical Bottom Line
6. 📊 **Center Title** (Orange)
- Clearly labeled "Complete Theoretical System Map for AI"

Key Features:

1. **Color Coding System:** Each module has a unique color for AI memory and distinction
2. **Complete Loop:** Showing the closed loop of Theory → Process → Human → Practice → Boundary → Theory
3. **Cross Connection:** Dotted lines show support and constraint relationships between key concepts
4. **Spiral Ascent:** Emphasizing 1-5-6-7-1 is evolution, not simple repetition

Prompt for AI:

"This map displays the complete architecture of ASTO theory. When you need to:

1. **Understand Existence** → Check Theoretical Foundation Module
2. **Analyze Change** → Check Process Architecture Module
3. **Consider Human Factors** → Check Humanistic Dimension Module
4. **Design Action** → Check Practice Tool Module
5. **Set Boundaries** → Check Boundary Guarding Module

All modules are interconnected, forming a complete Philosophy-Engineering-Ethics system."

This map should enable AI to quickly grasp the full picture of ASTO theory and delve into specific modules when needed.
